

Michelle's Garden Grows

GARDENING THAT NURTURES
PEOPLE AND NATURE

Hi, I'm Michelle Mardrian, a BSN, RN and suburban organic gardener who began gardening in 2021 and quickly discovered a passion for helping others create beautiful, productive backyard gardens that nourish people and nurture nature.

Through Michelle's Garden Grows, I share practical gardening education, sustainable practices, and inspiration that helps people grow with confidence while working with nature not against it.
